

# AirO Film<sup>®</sup> Agri

breathe eAsier

## The ideal wrapping solution for fruit and vegetables

### Product Overview

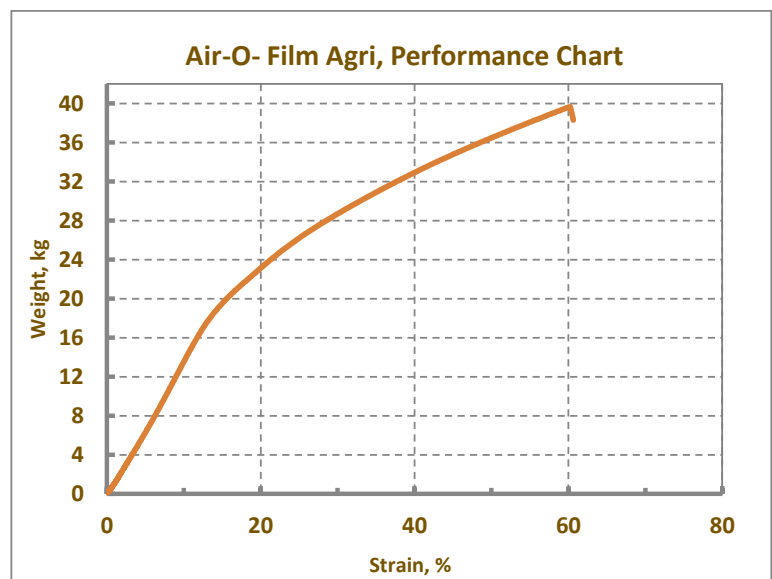

Fruit and vegetables typically have high levels of water content and this makes them particularly sensitive to their environment. Unless they are transported under the correct conditions they can very quickly and easily deteriorate. Using Air-O-Film<sup>®</sup> Agri ensures that this type of load arrives in perfect condition.

### Maximum Aeration Means Natural Ripening

Because it has such large openings, Air-O-Film<sup>®</sup> Agri gives maximum aeration. Not only does this prevent damage, it allows the product to ripen naturally.

### Holding Force

Furthermore, Air-O-Film<sup>®</sup> Agri has been specially designed to combine maximum elongation and power, offering an impressive tensile strength. This ensures that even the heaviest loads will remain secure during transportation

The graph above illustrates how the film performs under an increased load. Where the line ends indicates where the film breaks.

Technical Specifications			
	MACHINE	MANUAL	TOLERANCE
Tensile strength at break (kg)	36	36	10%
Elongation at break (%)	50	50	10%
Film width (mm)	430	430	2%
Weight (gr/m)	3,5	3,5	5%

Pallet dimensions: 80cm x 120cm x 120cm

Packaging Specifications		
	MACHINE	MANUAL
Roll Length* (m)	4.000	600
Core diameter (mm)	76	51
Rolls per box	-	6
Boxes per pallet	-	18
Rolls per pallet	24	108
Total length per pallet* (m)	96.000	64.800
Gross Roll Weight** (kg)	15,7	2,3
Net Pallet Weight (kg)	376	250
Length Tolerance*		±2%
Weight Tolerance**		±5%
